

Accessible Book Club

Books with pictures are ideal to adapt into “Accessible Books”. With the use of a scanner, photos of the pages can be attached to sound clips and placed into a Powerpoint file. Your student can then view the Accessible Book with the aid of a switch and computer interface.

For more information regarding creating your own Accessible Books or borrowing existing Accessible Books created by SET BC, check out their website at www.setbc.org.

Equipment and materials, which can be included in this kit:

- Computer
- Computer switch interface
- Single switch (as appropriate to your student)
