

Science Equipment & Materials

Equipment and materials, which can be included in this activity:

- Single switch (as appropriate to your student)
- Step-by-Step Communicator
- Yearly outline and unit outlines for upcoming science topics from the classroom teacher
- Sample questions for Step-by-Step Communicator
- Picture communication board (where appropriate)
- Magazines or books that have pictures for collages around the themes being studied in the science project (e.g., fish)
- Objects that relate to aspects of the topic under study (object cues) to pose questions
- Experiments and materials for station work for peers to join
- Questions from teacher to help classmates study
- Answers from teacher to help check comprehension on tests
- Skill testing questions from teacher on the topic to give randomly throughout the week
- Home-made stencils created around the topic under study to help decorate theme related bulletin boards
- Electric stapler to help assemble science workbooks
