

Sewing Modifications

- Use a switch to operate electric scissors. Scissors could be operated by a peer or assistant to prepare paper or fabric for projects.
- Provide instructions for a sewing assignment using the Step-By-Step Communicator.
- Provide answers to all the odd numbered questions when correcting a sewing test using the Step-by-Step.
- Use the Step-by-Step to provide a skill testing sewing question regarding the concepts being studied (e.g., bonus points).
- Have the teacher record reminders on the Step-by-Step Communicator.
- Have the teacher record on the Step-by-Step Communicator when the project is due to be completed
